MAVERICK ENTREPRENEURSHIP CLUB · WORKSHOP 01 OF 6

AI & your first blueprint.

Six workshops. One business plan by the end of the year. It starts tonight.

MEC | Minnesota State Mankato

06
Full business plan
Your blueprint, fully built out

Every workshop takes the speaker's lesson and adds it to your blueprint.

Care. Judgment. Leverage.

01

Care

Nobody can care for you. Pick something you'd stay in when it's boring.

02

Judgment

Nobody can think for you. Framing the problem and making the call stay yours.

03

Leverage

What you do with the first two. This is what we build, starting tonight.

AI predicts the next word. It doesn't know your customer.

How it works

Trained on huge amounts of text. It writes what usually comes next.

What it's great at

Fast first drafts, summaries, brainstorms, and tough questions.

Where it fails

It can sound sure and still be wrong. Check facts and numbers.

AI drafts. You decide.

Only you

- Framing the problem
- Deciding what to build
- Talking to customers
- Setting what good looks like
- Making the call

Hand it to AI

- Formatting the document
- Summarizing the research
- Drafting the email
- Producing the first draft
- Taking the notes

Spend your time on the left. Hand off the right.

ONE RULE YOU CAN USE TOMORROW

Write three sentences before you ask AI

WITHOUT THEM

"Give me a business idea for college students."

Result: a generic list anyone in the room could get.

WITH THEM

1 · WHAT'S THE PROBLEM?

Students who work late shifts can't find affordable food near campus after 10 PM.

2 · WHAT DOES GOOD LOOK LIKE?

Something one person could test in two weeks for under $200.

3 · WHAT WOULD MAKE THIS WRONG?

It needs an app or a lease first.

THEN ASK

Give me 5 ideas and the biggest risk in each.

WARM-UP · PAIRS · 2 MINUTES

Brainstorm out loud with someone next to you

FINISH THE SENTENCE

Something I care about is…

FINISH THE SENTENCE

One thing in it that annoyed me this month was…

One minute each. Just talk; no writing yet.

ACTIVITY 1 · GO DEEPER · SOLO · 5 MINUTES

Now put it on paper. No AI yet.

01

Pick

The thing you're part of: a job, class, club, team, family business, or side hustle.

02

Problem

What annoyed you? When did it last happen?

03

Cost

What did it cost: time, money, or stress?

04

Easier

One thing that would make that problem easier.

The test for line 1: would you stay in this when it's boring?

ACTIVITY 3 · SHARPEN IT WITH AI · SOLO + AI · 6 MINUTES

Write it first, then let AI push back

STEP 1 · WRITE IT YOURSELF

[Who] struggles to [do what] because [why].

Then add sentences 2 and 3: what good looks like, and what would make this wrong. Use what your group said.

STEP 2 · COPY THIS PROMPT

Here's a problem I want to solve: [sentence 1]. Good looks like: [sentence 2]. It would be wrong if: [sentence 3]. Before suggesting solutions, ask me the 5 hardest questions about this problem.

ACTIVITY 4 · SWAP & PUSH BACK · PAIRS · 4 MINUTES

Trade problems with a new partner

01

Read theirs

Their problem sentence and AI's 5 questions. Can you explain it back?

02

Ask the test

Would you stay in this when it's boring? Honest answers only.

03

Pick one

Which of AI's questions matters most? Say why.

AI asked the questions. Your partner tells you which one matters.

BEFORE NEXT WORKSHOP

Talk to three people who have your problem. Then start your blueprint.

One page: problem, customer, solution, how it makes money, and why you. Ask about the last time it happened, not "would you buy this?"
